“ He is and was the greatest man to come into my life. He showed me a kind of love I never knew before, gentle and soft spoken with so many great days of laughter. We held each other up and kept moving forward through thick and thin. A smile that brighten my world from the very beginning of our journey. He was and always will be my soul mate. Sweety until we meet again I'll see u on the other side I love you Tony my love.....ME

“ Working with Tony for years and finding out what a small world it was when we realized I knew his kids from when I was a kid! He always had a smile and a wide crack for me. He will be missed greatly!

“ My deepest sympathies to Cheryl, Ony, Amy, Ashley and the entire family. Praying for strength and peace during this difficult time. Growing up your house was like a second home to me and I have many memories of the laughter shared while around the table and campfires... thank you for the memories ❤️

“ thank you for being a great papa ❤️ you will be missed.

Scarlet - March 09, 2025 at 01:10 PM

“ Tony always made us feel welcome and like any other member of the family. Papa always treated Scarlet like all the other grandkids and she had the best time with him & Nana! I remember Scarlet learning how to say "Ooo ee" from Papa & Nana and echoing them constantly. There's a video out there somewhere. It was always evident in the way Sheryl laughed and smiled around Tony, that she was well loved. Tony's kids always showed love & respect for their dad, and that tells you just how wonderful of a father he was to them and his bonus kids. You are so loved and will be forever missed Tony! Thank you for all the love & kindness you showed to those around you.

AS

Sheryl was one of the best things to come into our father's life. They always had a great friendship that blossomed into their love for one another. I am so glad they both have had these decades together. It's not easy trying to blend to families together and with us all so close in age. Dad for sure loved all his grandchildren, blood or not. His bonus kids too. ❤️

As with the great loss and heartbreak, it makes my heart smile a little reading messages like yours Sami.

I am glad family and love is part of his legacy. He was the best significant other "partner", Papa, and father, etc

I am forever grateful for the family my dad gained and most of all for Sheryl being my dad's person.

Thanks Sami for sharing. ❤️
